

Summary of the War News

New measures, the exact nature of which is not indicated, are to be employed by the entente allies in the future conduct of the war, according to reports in Rome, where it is said the next meeting of the Italian cabinet will deal with the subject.

There seems to have been little recent activity in the Dardanelles, the Turkish official statement mentioning only artillery action.

Reports from various quarters describe conditions in Constantinople as chaotic with much suffering among the people while other reports, coming through Athens, declare that the position of the Turkish forces on the Gallipoli peninsula is precarious.

Bulgarian reservists in Italy have been called to the colors and from Rome state:

U.S. TROOPER IS KILLED AT BORDER

Brownsville, Tex., Sept. 13.—One United States trooper was killed and two others were wounded, one probably fatally when a band of Mexican bandits early today attacked the American patrol of seven men at an irrigation pumping station several miles up the river from this point.

A bill prepared for the Chamber of Deputies by Deputy Pierre Masse proposes the recruiting of natives of French colonies and protectorates for the French army.

PERSONAL MENTION

Francis Hinchey and Joseph Donnelly of this city left this morning to resume their studies for the priesthood at St. Bernard's Seminary, Rochester, N. Y.

DIED.

All above properties are bargains for sale cheap on easy terms. O. B. Short, agent, 39 Sanford building. I 13 at

SUES SCHEICHERT FOR COMMISSION FOR SALE OF LENOX

Redfield Claims to Have Found Purchaser for North End Property.

Walter M. Redfield, the real estate dealer, has brought suit against John L. Schleichert of this city to recover a commission he claims is due for procuring a purchaser for the Lenox block, Main street and North avenue.

Redfield says on June 1 last he was authorized by Schleichert to get a buyer. He found J. H. Borstelman, who on August 9 bought the block for \$35,000. In this transaction Redfield says a commission of \$540 would be reasonable. He demanded this amount from Schleichert but was refused. The suit is returnable to the common pleas court, October term.

VILLA'S GENERAL WILL VISIT U. S. ON PEACE PLANS

El Paso, Sept. 13.—General Felipe Angeles, second in command under General Villa, announced at Juarez last night that he would leave soon for New York and Washington on a mission for Villa and the convention government. The nature of this mission he declined to discuss. It is understood here that Angeles will be authorized to represent the convention government in dealing with the Pan-American peace proposals and also will be free to present his personal views upon the situation created by the advance of General Obregon into Northern Mexico. In these personal views he is believed to have the support of members of various factions, among them some individual followers of Carranza.

Villa, it is understood, has placed his future as leader of the convention forces in the hands of Angeles and is ready to consent even to complete elimination.

The scope of Angeles' mission will not be limited to the fate of the convention government, it is understood, but will deal with the entire future of Mexico.

VERY LARGE AND VERY SMALL ARE NEW FALL HATS

Display of Foreign and Domestic Styles at Dillon's Opening.

Hats which have survived the summer and the heat of the war zone and have come here to gladden the hearts of favored members of the local populace will be the features of the fall opening tomorrow of the B. H. Dillon & Co.'s millinery establishment at 1105 Main street. The prominent store has a number of beautiful chapeaux, recently arrived from Paris, which are, as usual, exceedingly beautiful and barometrical for the fashions of 1915-1916.

Hats are either very large or very small this year, broad brimmed sailors and close fitting turbans being equally popular. The favored material is velvet, and black is used in the prevailing color, although field mouse grey, Garibaldi red, (a rich shade of garnet), and plum color have much prominence. Many exquisite ornaments of small cut steel and jet beads are being used and a fad which is rapidly becoming popular is to have the ornaments fashioned after ancient armorial forms. Feathers are seen, both the Spanish coque, which is used on toques and is also made up in noques to resemble the bergeron of the soldiers, also the ostrich plumes which, both curled and uncurled, are being used more extensively than for several seasons past. Practically all flowers are applied.

Among the Paris arrivals of interest is a small, close-fitting turban of black velvet with a peacock tail bow the velvet standing high in the back and a small applied bead headband in colors to relieve the severity of the front. Mme. Georget had sent this model. Another, from Mme. Puyoune is a draped turban of plum colored plumes tipped with black velvet, also fitted to the head, which is one of the most original models of turban, was made of hatters' plush and had an applied ornament of dull tinsel on each of its four sides. A large black velvet, which is slightly up in the back, was cut in the front, and in the cut bird, fashioned of white ermine, was placed to relieve the monotony of the dark color.

Unusual is a large flat sailor of black velvet faced with pink and having pink roses applied to the brim. Over the entire hat and falling to the neck is a handsome veil of black Chantilly lace with gathered into a neckband of fur and fastened like a high collar about the neck.

Besides the numerous imported models, there are hundreds of handsome domestic hats, made by Dillon's efficient corps of designers and trimmers. The store also carries an attractive line of shirtwaists, veils, coats, silk petticoats and cloths and should be visited by all women who are interested in an exclusive and moderately priced line of these articles.

On Tuesday evening, Sept. 14, a social whist and pinocle will be held at St. Patrick's church parlors for the benefit of St. Patrick's church. This will be conducted by Mrs. John H. Farrell of 348 Center street and will be the first of a series of ten which will be given every Tuesday evening. Handmade prizes will be awarded and a gold piece will be given to the person making the highest score for the series.

Gustave Herve, editor of the French newspaper "La Guerre sociale," ridiculed President Wilson in an article, calling Wilson's German policy the "pacifism of a beating sheep."

BULLARD MEN TO MEET FOR TALK ON CONDITIONS

Employees Complain of Low Wages and Insanitary Surroundings.

Charges that the Bullard Machine Tool Co. is not treating its employees fairly are made by a committee of the workers there.

The following statement has been issued by the committee:

"The employees of the Bullard Machine Tool Co. desiring to avert labor troubles, wish to make known to the people of Bridgeport the following facts concerning conditions existing at the plant of the Bullard Machine Tool Co.:

"1. Wages at the Bullard Machine Tool Co. are excessively low. The average wage of all the men employed at the plant is only \$14 per week or less—in spite of the boom caused by the war. New men are being enticed here from other cities and after arriving here 'broken' are hired in large numbers at wages ranging from 17 to 25 cents per hour for an eight-hour day; this in spite of the fact that the company is advertising extensively in out of town papers with the offer of 'good wages.' Many machinists, moreover, are hired without any definite rating with the understanding that they are to receive 'good wages,' only to receive 22 and 25 cents or less per hour after they have completed two weeks of work.

"2. Laboring conditions at the Bullard Machine Tool Co. with regard to proper sanitation are unsatisfactory. About 400 workers are crowded together into a small damp washing room. The factory itself is very dirty and the management is lax with regard to proper ventilation, cleaning windows, etc.

"3. The men are required to wait until Monday of the third week after commencing work before they receive any pay. This causes great hardship to the new men who arrive in the city without money. Instead of requiring the men to wait nine days after the week of work is completed, pay day could be advanced to an earlier time such as is the custom in the other factories of the city. (Signed) SHOP COMMITTEE, Richard Berger, Chairman."

A meeting of the 7 a. m. to 3 p. m. and 11 p. m. to 2 a. m. shifts will be held at Machinists' hall, 27 Cannon street, Wednesday evening at 8 o'clock, and a meeting of the 8 p. m. to 11 p. m. shift will meet at 9 o'clock Thursday evening at the same place to take further action.

Admiral Goodrich To Make Address Here

A meeting of the Fairfield Fish & Game Protective association will be held in the Board of Trade rooms, here will be elected for the ensuing Newfield building, tonight when officers will be elected.

Among the speakers who will address the body are, Admiral C. F. Goodrich, U. S. N., retired, who in his own words "will spin a sailor's yarn." Another guest of honor expected to be present is Dr. Leonard Sanford, fish and game commissioner for New Haven county.

Sportsmen are warned that while the Connecticut laws on railroads make the open season begin today, the Federal statute keeps the season closed until after September 15. In view of the fact that violators of the Federal statute may not know until months afterwards that they have been detected and may then have to appear before a Federal grand jury though the state authorities do not prosecute, it is advised that the Federal law be carefully observed.

STRIKE IN SILK MILLS.

Summit, N. J., Sept. 13.—Three hundred and fifty weavers in the Summit Silk Mills went out on strike today for more pay. A strike at the works several months ago, which was accompanied by rioting was settled by a civic committee.

Crane Strikers Return With the Pattern Makers

More than 600 workmen returned to the Crane Co. West End plant this morning, according to William A. Allen, general superintendent of the company.

No concessions were made by the company, but the return followed a general order reached by the patternmakers and drew with them many of the other workmen.

"We're not going to be left behind by the others," Mr. Allen said this morning, "but the strike is over, nothing can be done now because we are not working to our capacity. It is a slack season."

Ten of the women core makers quit the ranks of the strikers but all the moulders held out, according to the report made to police headquarters.

WEATHER FORECAST

New Haven, Sept. 13.—Forecast: Generally fair tonight and Tuesday.

Connecticut: Cloudy tonight, Tuesday partly cloudy. Moderate east and south winds.

A long trough of low pressure extends from New Mexico north-eastward to lower Michigan. It is causing unsettled, showery weather in the north and in the northwestern districts of the lake region eastward to the coast. Snow was reported this morning from Montana. The temperatures continue somewhat above the normal for the season of the year except along the northern border. Freezing temperatures were reported from Montana, North Dakota and Nevada.

ALMANAC FOR TODAY

Sun rises 5:33 a. m.
Sun sets 6:06 p. m.
High water 1:27 p. m.
Moon sets 8:02 p. m.
Low water 7:34 p. m.

CIVIC LEAGUE'S PROGRAM EXTENDS THROUGHOUT CITY

Meetings in Interests of Italian and Polish Speaking Peoples.

A movement which has large promise for the early moulding of the American people into a common whole, able to converse in a common language, has been extended to Bridgeport by the North American Civic League.

This organization includes in its board of directors John Wanamaker, Cardinal Gibbons and Cardinal O'Connell, the Rt. Rev. William Lawrence and other notable clergymen.

Its object is to aid adult foreign persons in the mastery of the English language, and to hasten the time when they will become citizens.

Two meetings were held last night, one in Eagles' hall, for Italian born persons and one in the parish house of St. Michael's R. C. church, for persons born in Poland.

The former meeting was attended by 500 men and women; the latter meeting by some 1,200 men and women.

Mayor Clifford B. Wilson, Postmaster Charles F. Greene and Lynn W. Wilson were speakers at each of these meetings.

There was a meeting for Lithuanians, Sunday, a week ago.

The result of these meetings, to this time, is that some thousand persons have made application for entrance to the evening schools for instruction in English.

Mayor Wilson offered to see that everything possible is done to aid in the establishment of evening schools for such instruction.

In Catholic parishes instruction will be given in the parochial schools. The Polish meeting which was attended by over 500 men and women was arranged by Mr. and Mrs. Eugene M. Schlenk through the courtesy of Rev. Father Filigorski. A great interest was shown in the movement and following the speeches nearly 500 application cards were signed by men and women who intend to enter the classes that will be conducted by the league.

Mayor Clifford B. Wilson made an interesting talk on the Constitution and what it meant to immigrants.

Lynn W. Wilson talked in a most interesting manner upon the American spirit, the progress of immigrants in this country, the opportunities and the duties of citizenship.

Postmaster C. F. Greene spoke briefly and alluded to the fact that the day was the 32nd anniversary of the breaking of the Panama slave chain by Jan Sobienki and the Polish legions; the breaking of the advance of the Turks in Europe and establishing the fact that Europe was the center of the world.

Addresses in Polish were made by Dr. Bronislaw L. Smykowski, Rev. Father Filigorski, and Rev. Father Pankowski.

The league was explained in English by Attorney George Farrisi of this city.

A very enthusiastic meeting for Italian speaking people was held at the home of Mrs. Principia Ferraro, 1000 Main street, at 8 o'clock. The evening was an illustrated lecture, "The Story of America," by Joseph Spano, the secretary of the league at Boston, and who is in charge of the instruction of the league here. The interest shown here promises for the success of the league in Bridgeport.

Mr. Spano dwelt upon the theme that the law is the basis of order and that there is no liberty without law and order. He stated that the Italian immigrant owes it to his good Italian name to become familiar with the English language in order that they become citizens and familiar with the laws and customs by a knowledge of the common language of the country.

The audience applauded most the names of Washington, Lincoln, President Wilson, and King Victor Emmanuel.

The picture that seemed to make the greatest impression upon the throng was one of Lincoln in buckskin riding against a half split log to read a book. Mr. Spano drove home the point that Lincoln the laborer, made progress through knowledge and that every worker could advance himself through knowledge.

Dr. Giovanni Formichella, was the chairman of the meeting and spoke very interestingly of the work of the organization. Other speakers were Dr. Nicola M. Sansone, Rev. Canio Cerrato, pastor of the Italian Congregational church, Mr. Frank Frattion, Lynn W. Wilson, and Postmaster C. F. Greene. A musical number was an Italian song, "Santa Lucia" by Miss Irene Rutsek, soprano, accompanied by Miss Helen C. Grossman, violinist.

The league has previously held a Hungarian and a Russian meeting.

Bureaus will be established in various parts of the city and there will be a week of registration for the English classes and clubs. The Board of Education is planning to provide rooms in a number of the public schools for the classes. The movement is not in competition with any other educational movement, and the plans are so arranged that there will be co-operation between foreign speaking people in acquiring English and a knowledge of American institutions.

All the work is done without charge, and the work starts with meeting immigrants at trains and ships. Assistance is given charitable organizations, free legal advice is given up to the point of keeping immigrants out of litigation if possible, and there will be a free employment bureau and free collection agency.

Besides the classes in music, English, domestic sciences, care of babies, and other branches the league will conduct a public forum once a month at which there will be an orderly discussion of all public questions along educational lines. There will be a principal speaker and a chairman of the meeting and following the principal address anyone present may talk upon the subject before the meeting for ten or fifteen minutes as prescribed by the meeting.

The league through the kindness of Rev. Father Komara has arranged to hold a large meeting this evening for Italian speaking people at St. John's school building in Fennel St.

Probably one reason why the Panama exposition has been such a financial success is that the wise men of California did not stand around on the street corner all the time criticising the show, as would have been the case in some sections.

NEW HAVEN WANTS STRIKE LEADERS FROM BRIDGEPORT

Mary Scully to Handle Situation For Elm City Girl Workers.

So grave is the situation among the factories in New Haven, where girls are employed that Mrs. Mary Scully and James E. Roche, organizers of the A. F. of L. will go to that city several days this week for the purpose of making agreements with companies there.

Bridgeport corset workers, whose efforts helped to get better conditions in this city, went to New Haven yesterday and helped organize some of the corset shop employees of New Haven. The co-operation of the Bridgeport girls has been promised.

More than 300 girls and the same number of men met in the Trades Council rooms in New Haven yesterday afternoon and signified their willingness to become organized and affiliated with the International Box Workers. They represented a major portion of the strikers who quit work at the National Folding Box & Paper Co. plant.

The girls stated that they will stand pat on their demands for an eight-hour day, and that nothing will induce them to make any concession otherwise.

Star Pickets Say Factory's Attempt To Reopen Failed

Pickets on duty at the Star Shirt Co.'s plant reported this morning that the expected attempt to open for business was not successful. The strike breakers who were expected here did not enter the building.

An adjustment of the differences between the workers and the company is expected to be made some time during this week. It is the opinion of the strikers that the officials will make concessions soon.

MILITARY SURGERY IS TOPIC

Washington, Sept. 13.—Treatment of wounds in modern warfare was up for discussion here today at the convention of the Association of Military Surgeons of the United States.

BIG HOTEL BURNED

Colorado Springs, Colo., Sept. 13.—Fire early today destroyed the Mansion Hotel at Manitou, one of the largest in this region. The property was valued at \$250,000. The hotel was closed last week for the season.

ROCK-WILLMANN.

Miss Minnie Willmann, who was formerly with the Kline Bros. in the entire number of years that the establishment was in Bridgeport, and Mr. Charles Rock, slipped away and were quietly married on Thursday evening, September 9. The affair was kept very quiet because of the recent death of Mr. Rock's brother and mother, Charles Rickel, brother-in-law of the bride, was best man, and Mrs. Harry C. Norrish, her sister, was the bridesmaid. Mr. Rock is well known in Bridgeport and is connected with the Berkshire Mills Co. Both he and his bride have many friends who will be pleased to learn of their marriage.

BRIEF NEWS NOTES

An earthquake shock was felt at Massena, Italy. Both Mount Vesuvius and Mount Aetna are unusually active.

Sir William Van Horne, a leading financier of Canada, died at the Royal Victoria hospital, Montreal.

Fifteen hundred Italian reservists sailed for Naples from Jersey City on the Italian liner Danto Olighieri.

Four persons were killed and three injured when a Pere Marquette passenger train struck an auto bus near Flint, Mich.

Special schools are being founded in France to instruct crippled soldiers in trades whereby they may earn a living.

Both houses of the Commonwealth of Australia unanimously pledged themselves never again to purchase German goods.

Friends and admirers of the late Alfred G. Vanderbilt are raising funds to erect a memorial to him in New York city.

Since its organization 10 months ago, the Commission for Relief in Belgium has spent over \$50,000,000 in relief work in Belgium.

The exceptions under which passenger ships can be attacked by submarines seem more numerous than the rules under which they can't.

A brother paragrapher asks what has become of the man who used to black his own boots? Well, probably he is thinking about now that he needs a valet to help him put on his clothes.

Seventeen persons were injured in a fire that destroyed the New York City studios of the Famous Players' Film Co.

Gov. Yager of Porto Rico sailed from San Juan for New York to see President Wilson and urge American citizenship for Porto Ricans.

Three hundred auto trucks for the Russian army are being constructed at the Baldwin Locomotive Works.

The new torpedo boat destroyer O'Brien carried off the honors during maneuvers and target practice by 22 destroyers off Hampton Roads.

Reports received at London, from Ireland state that Richard Croker will turn over to the British Revenue all stakes won by his horses this season.

President Juan J. Jimenes of San Domingo, appointed Jose M. Jimenes as minister of the interior, and Francisco Herrera minister of finance.

Former Governor Samuel W. Penny-

HOWLAND'S

Entrances in Main Street, Fairfield Avenue, and Cannon Street.

Bridgeport, Conn. The Weather: — Cloudy tonight, Monday, Sept. 13, 1915. Tuesday partly cloudy.

The store is open daily from 8:30 a. m. to 6 p. m., except Saturdays when it is open till 9 p. m.

Silks of rich subdued beauty.

Quiet elegance dignifies the new silks, now hurrying forward.

Many of them are striped and what wonderful stripes!

Two and three colors appear in them but these colors are so cleverly blended that there is no clash and no sharpness. Instead, they have a soft richness.

And plaids are equally unusual.

A soft deep brown is marked off into plaids by satiny stripes of the same hue of brown.

Just a quiet deep monotone plaid. And beautiful! Deep blues too—and many rich colors suited to wear either afternoon or evening.

Quite a different note is struck by the fine satins for lining coats and wraps. They are simply gorgeous with flowers gleaming from their lustrous surface.

Silks of lighter hue have joined the display too.

Blue of the hue of the sky appears alternately with white in handsome stripes. White silks are daintily strewn with flowers. Tiny figures appear upon light silks. Variety is impressive.

\$1.50 and \$2 and upward.

But come; that is the one and only way to realize the beauty which has been gathered.

Center aisle, rear.

"Cravenette" is a real wonder.

Stick your finger in water—and it won't get wet. Let water run for hours across a piece of woolen—and it does not wet through!

A fair tale? Not one bit of it. Instead, a demonstration of the Cravenette proofing process.

Cravenette is a powder that makes fabrics water repelling. Sprinkle it on water and that water won't wet your finger. Impregnate a fabric with it and that fabric sheds water.

This week, we are showing folks what the Cravenette proof is; exhibiting clothes which have been cravenetted; putting Cravenetted articles to severe tests.

Men and women will be alike interested in the exhibit. Everybody is invited to it.

Now going on, to continue through the week, a surprise to even folks who know the worth of Cravenetted clothes.

Main floor, rear.
